Hive

Designed by Roger Webb Associates

Flexible furniture for productive people.

- Numerous configuration possibilities
- Optimises use of existing real estate
- Establishes different zones with no need to build walls
- Helps enhance and reinforce organisations' brand and culture
- Integrates power and technology
- Supports diverse working styles
- Creates inspiring environments to attract and retain the best talent
- Enables bespoke design of activity based settings
- Allows visual, territorial and acoustic privacy for individuals and groups

Hive

Case studies

Jyske Bank, Denmark

IT Suite, Kirklees College, Huddersfield

Meeting space, Kirklees College, Huddersfield

Collaborate

Example configurations

Banquette style booths for working, meeting or eating

Multi-purpose meeting spaces with integrated TV and work surface for training and presentations

Simple curves create an elegant seating area

A dynamic sweeping shape creates a statement piece of furniture for communal spaces

Focus

Example configurations

Private pods with excellent noise reduction properties for collaboration or concentration

Learn

Integrated worksurfaces with built in power and data ports encourage seamless working

Socialise

Varying the heights of the screens adds more versatility and interest

Socialise

Example configurations

A semi-private meeting area aids team-working and sharing of ideas

Benches on both sides maximise the number people that can be seated

Connect

Define social areas with flexible seating

Core components

Hive's versatility is based around just four modular components: Backs, Benches, Screens and Work Rails.

These modules can be curved or straight and are available in a choice of widths.

Integrated technology

Hive has been designed to integrate power modules and data points into a number of accessible positions.

Fixed or freestanding TVs and displays can be accommodated in a variety of configurations.

Accessories

Complete your Hive design with integral work surfaces and tables, with or without integral power units.

An acoustic canopy with lighting creates a private space within an open environment.

Upholstered table

Rotating work surface

Round work surface

Cantilever work surface

Pod with integral work surface and canopy

Fabrics and finishes

Hive can be upholstered in a wide selection of fabrics and colours. The list of recommended fabrics can be found on our website: www.connection.uk.com

Work rails have the ability to support a range of useful accessories and work surfaces.

There are several attractive top options for all work surfaces. Contact us for details.
